

CLIENT SUCCESS STORY INNOVATIVE ROAD MAP REQUIRES THE RIGHT TALENT

Healthcare and technology blend for a powerful match with top talent.

The Challenge

As one of the first healthcare systems to start implementing mobile applications, our client **needed a partner that could deliver on talent**. Looking for skilled specialists in Data Warehousing, HL7 Integration, Java, Medical Coding, and Mobile Application Development, they turned to Technology Partners for direction.

The Plan

Technology Partners put together a team of top recruiters, led by a senior account manager, to work closely with the client's hiring managers. After meeting with the client to establish and truly understand their needs, Technology Partners leveraged their **powerful network of the nation's top talent** to identify the right people for the client.

The Results

With the right people in place, our client was able to turn their innovative ideas into a reality, becoming one of the first healthcare systems to implement mobile applications for managing and accessing Electronic Medical Records (EMRs).

“The ability Technology Partners has to provide the right person for the role time and time again is what truly differentiates them. We’ve definitely been impressed.”
